To Whom it may Concern:

This letter is written in high recommendation of Amazing student for a scholarship.

It was my pleasure to have Amazing student as a Biology student her sophomore year. It is her PASSION and drive for others that set her apart from any student I have ever had. She was a class leader in class activities and laboratories and was constantly helping others in her Biology class. She is one of the most respectful, passionate and dedicated students I have had here at Great Oak H.S. She always demonstrated a strong work ethic and did very well on creative assignments and following laboratory procedures.

Amazing student has also been involved in activities here at Great Oak and in the community. She is very involved in Yearbook. She has been part of the editorial staff and has put in countless hours since 2015. She also has been very involved with piano and dance while she has been in high school. She was awarded "Leader of the Pack" three times also, which a teacher just picks one of their students to be awarded.

She has also volunteered in the community as well. She has done many hours of Vacation Bible School. She has also been a leader and coordinated three workshops at her church also.

In addition, she volunteered at Great Oak's Spectacular Prom, which is a special dance with those with special needs.

I have no doubt that Amazing Student will be an extremely successful student at her university. She is very mature, sincere, dedicated, passionate, and has a willingness to work with others. I recommend her highly for a scholarship!

Sincerely,

Jennifer Mosley
Biology/AP Bio Educator
